

NOVEMBER IS
NATIONAL HOME CARE MONTH

IN MEMORY OF
EDWARD M. KENNEDY
1932 — 2009

“I am absolutely convinced that one of the most important elements in a humane and effective health care system is the ability to treat people in their own homes when medically appropriate. Improving the financing and the delivery of home care services should be at the top of Congress’s priorities; it is certainly at the top of my own personal legislative agenda for health care.”
